Vinyl Care Instructions For Memories and Initiator

Immediately After Installation

- For eight hours after seam application, protect the sealed seams on your flooring. This will ensure proper seam bond. If your seams are disturbed before they're dry, permanent damage may result.
- Maintain room temperature at 70 degrees for 48 hours after installation is completed. This assures proper curing, setting, and bonding of products.
- The adhesive under your floor needs time to thoroughly dry after installation. Therefore, we recommend that you do not scrub or wash your floor for five days.

Proactive Protection for Your Floor

- When moving appliances or heavy furniture, place a plywood panel on your floor and "walk" the item across it. This protects your floor from scuffing and tears.
- Use floor protectors on furniture to reduce indentation. As a general rule, the heavier the item, the wider the floor protector needed.
- Place a mat outside entrances to reduce the amount of dirt brought into your home. We strongly recommend mats without a latex or rubber backing since these backings can cause permanent discoloration.

Caring for Your Floor

- Sweep regularly to remove loose dirt which can scratch your floor.
- Wipe up spills as soon as possible. Remove dried spills with Armstrong New Beginning Extra-Strength Cleaner and Wax Remover on a clean white cloth. Never use highly abrasive scrubbing tools on any Memories floor. See stain removal instructions on removing specific stains.
- Wash your floor regularly with Armstrong Once 'n Done No-Rinse Floor Cleaner.
- For heavy duty cleaning, use Armstrong New Beginning Cleaner.
- Do **not** use detergents, abrasive cleaners, or "mop and shine" products. These products may leave a dull film on your floor.
- Over time, if the shine on your floor begins to dull, Armstrong Shinekeeper Long-Lasting Floor Polish can be used to renew your floor's shine. Do **not** use paste wax or solvent-based polishes.

Stain Removal Instructions

Crayon

- Rub the stain with lighter fluid, mineral spirits, or turpentine on a clean white cloth.
- Scrub the area with Armstrong New Beginning Cleaner and a non-abrasive white scrubbing pad, following instructions on the label.
