

BROCK INTERIORS, INC.
exceeding your expectations

Occupied Unit Release - Vinyl

I understand that Brock Interiors, Inc. will move these items when installing new sheet vinyl in my unit:

Empty Refrigerators

Empty Washer and Dryer

I also understand Brock Interiors, Inc. will not move these items when installing new sheet vinyl in my unit:

Contents of the Refrigerator

Laundry in Washer/Dryer

Floor mats

Personal Belongings

Dishes

Dog and Cat Dishes

Water Dispensers

Items on pantry floors

Do not mop your new flooring for at least 72 hours after installation. All vinyl seams are sealed and can be compromised if mopped before drying. Do not use any mop and shine products. We recommend the use of Armstrong's "Once and Done" for general maintenance.

Do not attempt to move the refrigerator or stove for at least one week. The vinyl will be vulnerable to ripping and should be not be moved. After one week, move only with the proper equipment.

I understand that the refrigerator must be totally emptied during the installation as the contents can spill during its moving. Further, I understand that I am responsible for the removing as well as replacement of the contents of the refrigerator. Additionally, I will take any necessary precautions to ensure that the perishables remain cold by placing them in a cooler or moving them to another refrigerator.

I understand that if my unit is not ready when the installer arrives I will be responsible for a \$35 trip charge and the install will be rescheduled.
